PRODUCTS CATALOGUE

01

Who we are

We belong to Valtalia Group, an international reference in the management and handling of residues, raw materials and manufacturing of packaging products.

02

Production process

We have made important investments in machinery with the highest technology of the market and we have at our disposal a large productive capacity to take care our client's needs.

03

Products

We have a large product's portfolio, with paper bags, plastics bags, boxes, tapes....

04

Environmental Management

We are present in the entire waste value chain, which make us into Integral environmental managers; we count with PEFC and FSC certifications and the sanitary registration.

05

Customer service

Our productive process, service and orders confirmation adapts to our clients' needs and enable us to give an excellent, efficient and fast service.

Who are we?

We belong to Valtalia Group, an international reference in management of waste, engaged to achieve a sustainable development which contributes to social welfare.

Since our establishment in 2005, our business group had had a constant and sustained trajectory, accompanied by a business and geographical diversification process.

Our vast experience, acquired in these past years, has given us the capacity to face each step of the INDUSTRIAL process; construction, management and maintenance of industrial installations, packaging factories (plastic, paper, tapes), design and construction of the installations for solid waste treatment; which make us into an Integral environment management.

We satisfied our client's needs through a model of sustainable corporate management which contribute to social welfare.

Production process

Paper

We count with PEFC and FSC, the most important environmental certifications.

Our paper bags factory is one of our most recent projects, created in 2012. Our technical department designed and worked in the construction of this factory and assembly of the productive process. This allowed us to have a large productive capacity to manufacture paper bags; we can supply over 25.000.000 bags per month. In this project we can emphasize the high investments made and our continuous improvement process, with clear orientation to I+D.

We are characterized for investing in the development of our products and in the training of our staff. Our goal: the constant improvement of our products, processes and staff.

Now a days, this, is a consolidated project that has allowed us to make a big quantitative and qualitative jump in our industrial activity. In addition we have reinforce our enviornmental commitment

achivinf the highest environmental certifications, reaching the goal of being socially responsible.

We count with the most cutting-edge technology

Our organization, the productive process, the machinery, the product and our staff enable us to provide a service of excellence, efficient and fast towards our clients.

In our factory we count with an experienced, professional, dynamic and proactive team; always attentive of market opportunities and of the needs of our customers. We manufacture with top quality raw materials, paper and polymers, inks, adhesives, etc. Our suppliers are reference in each industrial sector; they have to pass strict quality and homologation controls.

In this manufacturing process, we have at our disposal several lines of production for paper bags and we count with cutting edge technology. Our cutting edge machinery enables us to manufacture high quality paper bags. We stand out for our capacity and quality of our printings; we can print till 6 different colors or photographic print quality through four-color printing. This allow us to offer high quality printed bags to our clients.

In terms of our product, the available machinery enables to manufacture high quality bags in white or kraft, with 32grams to 110grams of grammage, with our excellent printing or without it, windows bags, handle bags and others; always with the dimensions and packaging selected by our customer.

Plastics and tapes

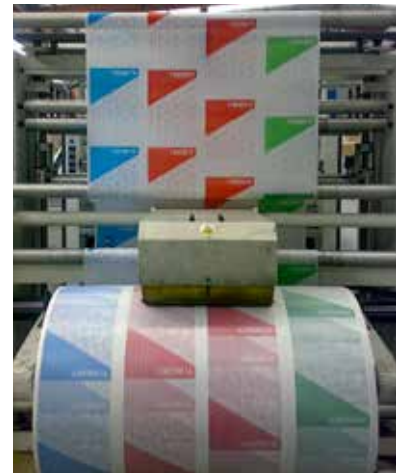

Plástico

Our plastic production is specialized in manufacturing bags, coils and sheet of high and low density polyethylene and polypropylene. We have at our disposal a large supply capacity, specialized in large scale industrial supply.

This allows us to engage important commitments with industrial companies, supermarket chains, and shops from agro alimentary, trading and manufacturing.

We are familiarized with the needs of this kind of supply, we have at our disposal a weekly or monthly programming capacity, management of urgent logistical services, safety stock and big storages with over 10.000m² enable us not fail the supply towards our customers.

Our commitment is not to fail our customers.

We have a large supply and storage capacity.

Tapes

We count with a wide spectrum of tapes, in different materials, formats and dimensions. With a possibility of anonymous supply or tailor made products, optional low noise format manufacturing. We are proud for always presenting the best option for our customer needs and we have a large variety of products: scotch tape in acrylic PP, solvents and PVC.

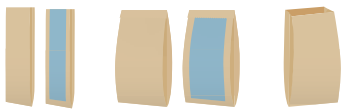

Product portfolio

We have a large product portfolio for agro alimentary, trading and industrial supplies. Our specialties: bags for agro alimentary and shops, and bags and sheets for industrial supplies. Request your quotation personalized, with our commercial and technical team. We'll provide you with the best offer adjust to your necessities.
